ICT-BASED LEARNING ENVIRONMENT

The ICT facilities available have been instrumental in creating an effective student learning environment. The use of ICT has helped in the shift to a more student-centric learning environment. It empowers the learner with easier access to information from multiple sources, open-mindedness to different viewpoints, acquisition of skills and through an integration of the acquired information into their curriculum.

Students are given ICT training through Digital Literary sessions to help hone their ICT skills and help them further in their academic growth.

DIRECTION, SCRIPT WRITING AND ACTING IN SHORT FILMS AND DOCUMENTARIES BY STUDENTS

As a part of developing the talents and interests of students in addition to academic pursuits, students are also encouraged to resort to mass media. The audio-visual aspects of script writing, direction and acting are areas which have been experimented by students.

Students often use less expensive film shooting technologies like handy cams, digital cameras and mobile phones to make short film productions.

Students who have shown interest in the different aspects of film making – direction, script writing etc – have been encouraged and given assistance in terms of technical information and support. They are also helped in script writing, editing of movie clips etc. Even brochure preparations, poster making for events etc are entrusted to students to enhance their interest and skills in this area.

Our students have further taken up projects in the media through short films, TV performances, journalism etc. as a result of the training and motivation we provided during their period of study here.

Our college is proud to offer an ICT-based learning environment for students. With the integration of Information and Communication Technology tools and resources, we aim to provide an enhanced learning experience that goes beyond traditional methods. Through multimedia presentations, online simulations, virtual labs, and interactive learning modules, students can engage with complex concepts in a more interactive and dynamic way.

This ICT-based learning environment not only promotes personalized learning experiences but also develops essential digital literacy skills that are increasingly sought after in today's technologically-driven world. By embracing this innovative approach, our college is preparing students for success in their academic pursuits and future careers by equipping them with the necessary skills to thrive in an ever-evolving digital landscape.

Multimedia Presentations: ICT tools allow for the creation and delivery of multimedia presentations, which can include videos, audio recordings, interactive slideshows, and animations. These presentations make complex concepts more engaging and easier to understand.

Figure 2: STUDENTS WATCHING SHORT FILM

ICT Based Laboratories: Our College provides ICT-based laboratories to students for learning purposes. These labs are equipped with computers, software, and other technological resources that enable students to enhance their skills and knowledge in various fields.

Figure 3: HEIS STUDENTS DURING PRACTICAL CLASS

Figure 4: TEACHERS EXPLAINING FEATURES OF ICT TO STUDENTS

Mobile Learning: With the rise of mobile devices, ICT-based learning environments can be accessed on Smart phone and tablets. This enables students to learn on-the-go and have flexibility in their study schedules.

Teacher Support and Communication: ICT tools enable effective communication between students and teachers. Students can seek clarification, ask questions, and receive guidance through Whatsapp groups messaging, email, or video conferencing.

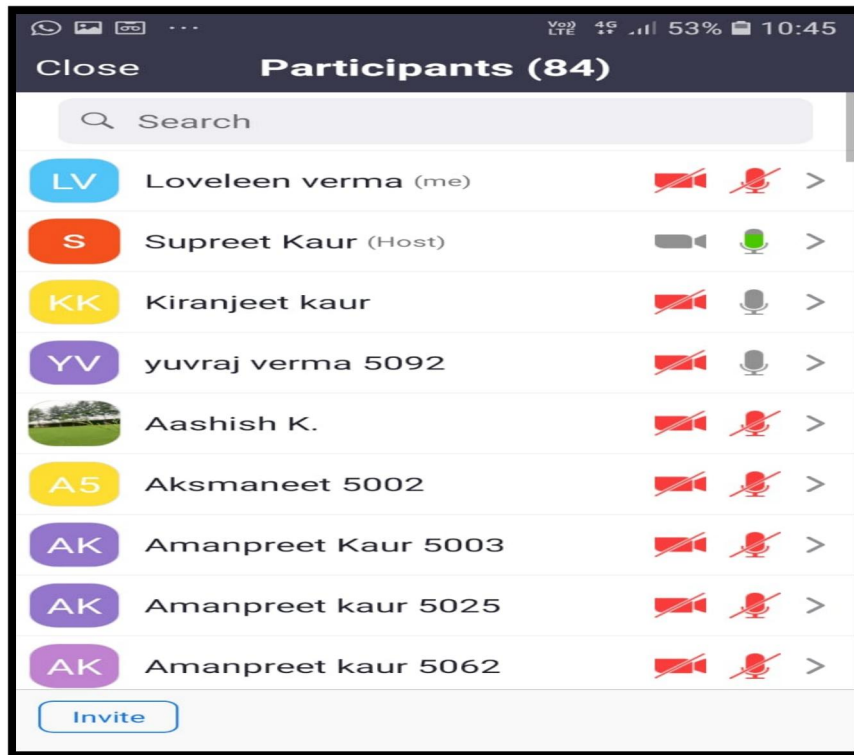

Figure 6: STUDENTS OF B.COM 1ST YEAR DURING ONLINE CLASS

Digital Literacy Skills Development: ICT-based learning environments help students develop essential digital literacy skills, including proficiency in using software applications, conducting online research, critically evaluating information, and practicing responsible digital citizenship.

Website Development: Our Student Simranjeet Singh of Class B.A 3rd year session (2022-23) launched a website WEBLARY for selling old and new books at online platform. In India, the majority of colleges refer local author books. This unorganized market restricts access to books, especially in areas lacking local book markets. Additionally, students in smaller cities face challenges obtaining second-hand books, as local shopkeepers have limited stock, while larger cities have abundant supply. Furthermore, frequent syllabus changes scrap the unsold second-hand books of Sellers. To address these issues, a solution is developed to enhance books accessibility. A website weblary.com has been created to connect students with sellers, utilizing existing delivery networks and modifying them as necessary. This initiative aims to bridge the gap between students and sellers, enabling easier access to books and reducing academic expenses.

Figure 8: SIMRANJEET SINGH DURING LAUNCH OF HIS WEBSITE WEBLARY.COM

Community Building Platforms: Community Building Platforms like Face book, Twitter, and Instagram have become powerful tools for community building. Students can create groups or pages to connect with like-minded individuals, share information about community events, and raise awareness about social issues.

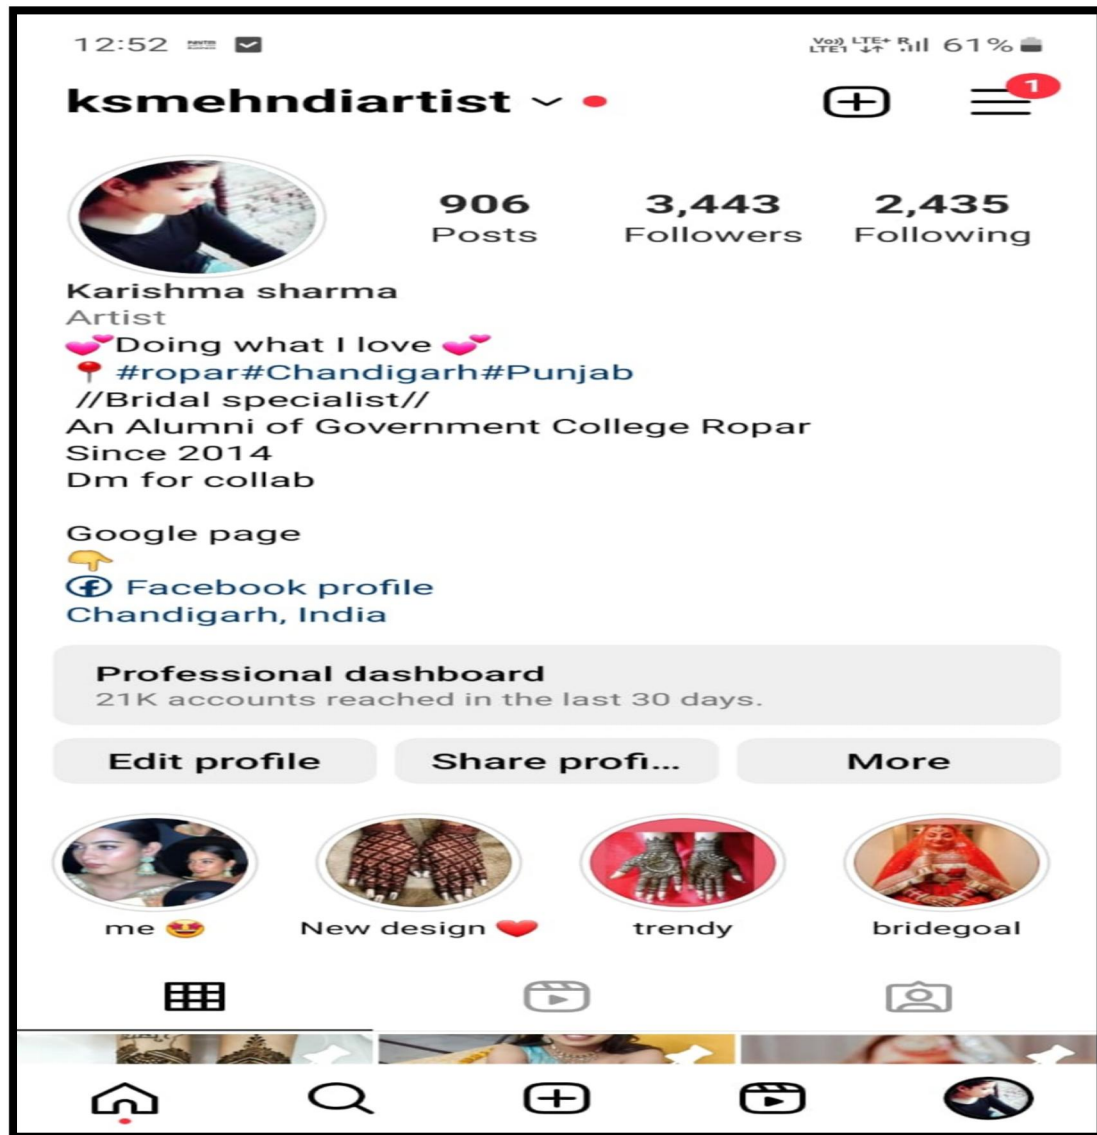

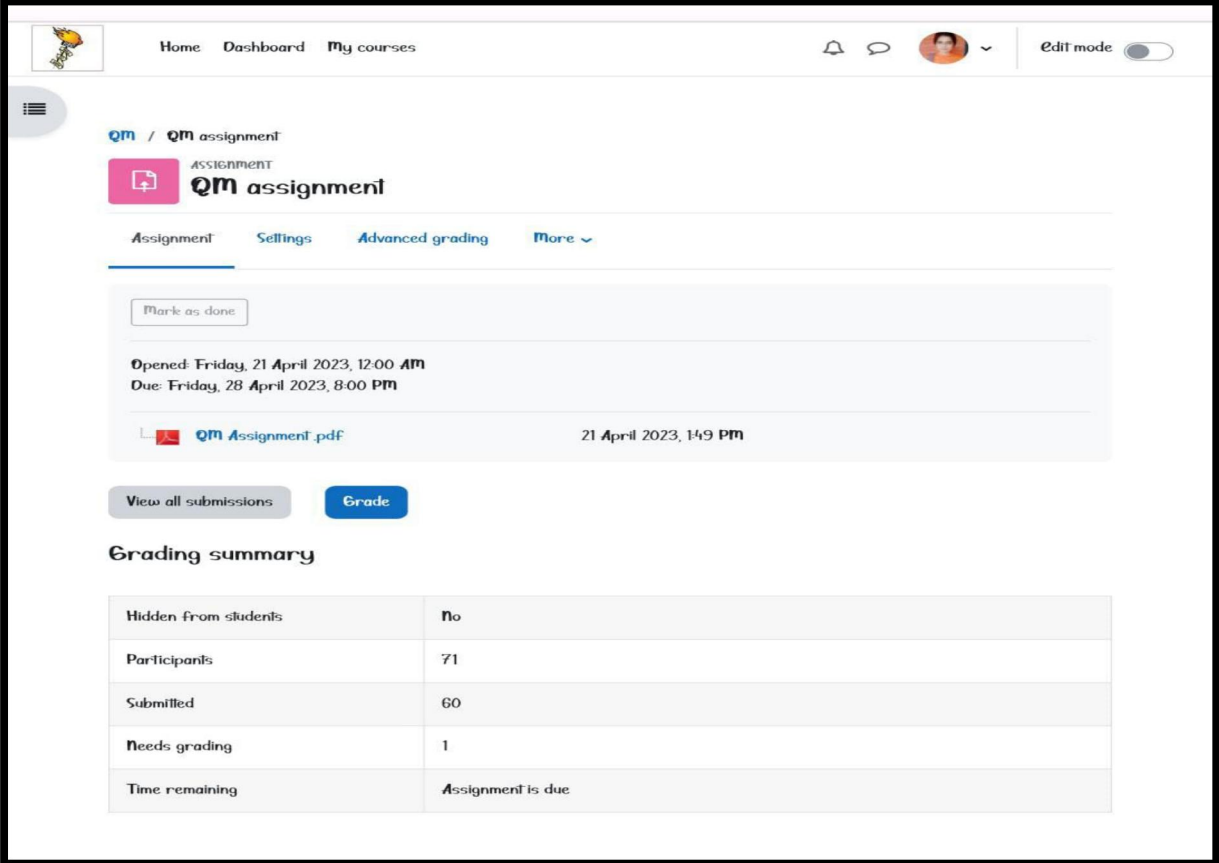

Figure 9: INSTAGRAM PAGE OF ALUMNI OF GOVT COLLEGE ROPAR KARISHMA SHARMA

Online Assessment and Feedback: Online assessments, quizzes, and assignments provide immediate feedback to students, allowing them to monitor their progress and identify areas for improvement. This real-time feedback promotes a more personalized learning experience.

The screenshot displays an LMS interface for an assignment. At the top, there are navigation links for 'Home', 'Dashboard', and 'My courses', along with a user profile and an 'Edit mode' toggle. The main content area shows the assignment title 'QM assignment' and a 'Mark as done' button. Below this, the assignment's start and end times are listed: 'Opened: Friday, 21 April 2023, 12:00 AM' and 'Due: Friday, 28 April 2023, 8:00 PM'. A submission record is shown for 'QM Assignment .pdf' submitted on '21 April 2023, 1:49 PM'. There are buttons for 'View all submissions' and 'Grade'. A 'Grading summary' table provides the following data:

Debate at College and university level:

Our colleges offer debate and declamation context for students as a way to encourage critical thinking, public speaking, and communication skills. Debates allow students to explore complex issues, develop their research skills, and learn how to work collaboratively with others. By participating in debates, students can engage with their peers and learn from different perspectives, which can help them become more well-rounded individuals. Furthermore, debates can help students build their confidence and become more effective communicators, which can be a valuable asset in both their personal and professional lives.

Subject quizzes of various departments:

Our colleges offer subject quizzes for students as a way to test their knowledge and understanding of various academic subjects. These quizzes can be a valuable tool for students to assess their strengths and weaknesses in specific areas of study, and to identify areas where they may need to focus their efforts. Additionally, subject quizzes can be a helpful study aid for students preparing for exams or seeking to improve their overall academic performance. By testing their knowledge in a specific subject area, students can gain a better understanding of the material and improve their ability to retain and apply that knowledge in the future. Overall, subject quizzes can be a valuable resource for college students looking to enhance their academic skills and achieve their academic goals.

WALL MAGAZINE OF DIFFERENT DEPARTMENTS

Wall magazines are an important aspect of college life. They are a platform that allows students to express their creativity, share their knowledge, and showcase their talents. Wall magazines provide an opportunity for students to write articles, poems, stories, and share their artwork, photographs, and other creative works. They also serve as a platform for students to share their thoughts on social issues, current events, and other topics of interest. Wall magazines help to promote a sense of community and belonging on campus. They encourage students to collaborate and work together, fostering a spirit of camaraderie and teamwork. Moreover, wall magazines can act as a source of inspiration and motivation for students, encouraging them to pursue their passions and interests. In conclusion, wall magazines are an essential component of college life, providing a platform for students to express themselves and connect with their peers in meaningful ways

Graffiti OR Wall Paintings at college level

Our colleges offer painting and graffiti options for students as a way to explore different forms of art and self-expression. These classes and workshops can provide students with the opportunity to learn new techniques, experiment with different mediums, and express themselves creatively. Painting classes can help students develop their skills in colour theory, composition, and brushwork, while graffiti workshops can teach students how to use spray paint and markers to create bold and impactful designs. In addition to developing artistic skills, these classes can also be a valuable tool for stress relief and self-care. By offering painting and graffiti options, colleges are providing students with a unique opportunity to explore their creativity and engage with the world around them in a meaningful way.

Role Plays

Our college offer role plays as a way to enhance the learning experience for students. Role plays allow students to practice and apply their knowledge in a realistic setting, which can help them develop critical thinking and problem-solving skills. These activities can take many forms, including simulations, case studies, and group discussions. By participating in role plays, students can gain a deeper understanding of complex concepts and develop a sense of empathy for different perspectives and experiences. Additionally, role plays can be a fun and engaging way to learn, making education more enjoyable and memorable for students. Overall, offering role plays is a valuable tool for colleges to help students succeed academically and professionally

DEPARTMENT, COLLEGE AND UNIVERSITY LEVEL ACTIVITIES

The institution has always been in the forefront of encouraging pupils to expand their abilities and creativity. Contemporary education strives beyond the typical teaching-learning scenario and focuses on inspiring students to be in tune with the academic and professional needs of the modern era in order to keep up in today's competitive world. Their self-confidence is boosted and they are inspired to become better citizens by the programmes and events that are put on at the university, college, and department levels by the various groups and clubs. Going beyond just getting good grades and participating by comprehending and putting them into practice is beneficial. Festivals, lecture series, commemoration of significant dates, celebrations, Arts Fest, etc. are a few of the venues that guarantee strong student engagement.

Promoting student interest in college activities is crucial for fostering a vibrant and engaged campus community.

Departmental Associations Activities and Club Fairs: Each department of Government College Ropar has a student teacher association or club which organizes regular club fairs, quiz competitions, exhibitons and various activities where students showcase their creativity and mindfulness. This allows students to explore various interests and find clubs or groups that align with their passions
