**GENDER AUDIT: 2018 to 2023**

## **PREFACE**

Gender equality is a fundamental human right and a key driver of sustainable development. It is essential to ensure that all individuals, regardless of their gender, have equal access to opportunities, resources, and services. In light of this, our institution is committed to promoting gender equity and creating a campus environment that is safe, inclusive, and welcoming to all.

To achieve this goal, we have conducted a gender audit to evaluate our programs, procedures, and practices in terms of their impact on gender equality. The audit aims to identify areas where we are doing well and areas where we need to improve, so that we can take action to address any gender gaps or biases that may exist.

Women's safety in college is an important goal of the gender audit. A major Sustainable Development Goal, gender equality is a universal concern. It is also a matter of international commitment. As stated by the Indian Constitution and fundamental rights, gender inequality, violence, and discrimination are considered forms of human rights violations, breaches of universal decency, and violations of life and liberty. Women who have a gender-aware mindset can transcend ingrained gender roles and other outdated assumptions.

We especially applaud the IQAC team for choosing to audit the gender balance at Govt. College Ropar.

## **INTRODUCTION**

A community free from all sorts of gender violence, harassment, exploitation, intimidation, and discrimination is something that Govt. College Ropar is dedicated to build and uphold. This community includes students, teaching, and non-teaching staff. Every employee of the college is aware that, notwithstanding its commitment to the right to free speech and association, it strongly supports gender equality and rejects all forms of violence against women and girls.

Gender stereotyping is forbidden in Govt. College Ropar, which aims to instill a zero tolerance stance against all forms of discrimination. To do this, it is necessary to use the knowledge, viewpoints, actions, and sensitivities of every member of the faculty, staff, and students in order to create and maintain a gender-just environment in learning, teaching, research, administration, and management at all times.

We employ more or equally as many women as males in our college, and they are given prominent tasks to help us manage the day-to-day operations of the institution. Government College Ropar believes that it is equally crucial to treat women employees with respect and give them an equal opportunity to succeed in both their personal and social lives. This would help them contribute to enhancing society. Unconscious prejudices against women is not accepted, nor are any other forms of bigotry and discrimination. In order to maintain the policy of equal representation of men and women, gender sensitivity is used in all recruitment, promotions, and opportunities for leadership. The lady's staff oversees the majority of club workouts. Additionally, our understudy ratio supports the institution's gender-sensitivity.

An evaluation of the current state of gender balance in our college was directed by the gender audit, which was carried out to find measures to make college safer for women. We also see this as an opportunity to fill in any gaps that may have gone unnoticed and continue to fairly incorporate the knowledge and skills of women staff members into our workforce in order to maintain our prosperity. The assessment also looks to examine if the College follows the policies, plans, and initiatives of the university.

Additionally, the assessment makes an effort to analyse how it works and

suggested measures may affect gender equity. The audit procedure included selecting the audit sites, identifying the participants, introducing the participants, creating the checklist and the walk-about, writing down the findings, and communicating the results with the college principal for implementation of the suggestions.

The entire college works together to establish a gender sensitive atmosphere that respects gender diversity and the interconnectedness of other marginalities, and jointly examines how to do so. The anti-harassment and women's cell collaborated on several programmes to uplift the spirits of women, educate them on the value of gender equality, and prepare them for violence against women. Additionally, they received self-defense instruction because it is crucial in a volatile society like our own. Diverse lessons have been set up to demonstrate to the pupils the need of accepting people of all sexual orientations and other sexual minorities in order to create a society that is more egalitarian. Different skill-development initiatives were integrated as well, and females received specialized knowledge through women centric programmes which includes seminars, lectures and Workshops.

## **OBJECTIVES**

- a) To uphold the country's commitment to gender equality by encouraging gender sensitization in all facets of college life and among the college community.
- b) To stop violations of national laws that forbid gender inequities, endeavour to remedy any infringements on gender-based rights, and promote the empowerment of women in all college-related activities.
- c) To foster an atmosphere that respects both gender diversity and the intersectionality of other marginalised groups.
- d) To ensure that no woman faces prejudice and that all women receive equal opportunities.
- e) To develop methods for stopping gender-based violence and discrimination, including sexual harassment, and to make sure that these methods are followed to the word and spirit.

## **GENDER SENSITIVE FEATURES OF GOVT COLLEGE ROPAR**

Fairness for both men and women is what gender equity entails. In order to maintain fairness, tactics and procedures frequently need to be available to make up for women's historical and societal disadvantages, which hinder men and women from otherwise operating on an equal playing field. Equal rights follow from equity. To achieve gender equality, women and men must equally benefit from the opportunities, resources, rewards, and other socially valued things. Women are typically excluded from or given the short end of the stick when it comes to making decisions and having access to economic and social resources where gender disparity exists. Women's empowerment, with a focus on detecting power disparities and giving women more liberty to manage their own lives, is therefore essential for advancing gender equality. Women's emancipation is necessary to achieve gender equality.

Understanding the delicate demands of a particular gender also necessitates gender sensitization. It encourages us to consider our own attitudes and views as well as the 'realities' we previously believed to be true. Since the dawn of time, people have sensed and understood the necessity for this sensitivity in virtually every aspect of human existence. As many people feel that education is the catalyst for change, recent discourses have focused on the necessity to raise awareness of gender issues in campuses. Educational settings encourage reflection and help people form beliefs.

Therefore, the college recognises the departments, fields of study, and committees or cells that work specifically to promote diversity, sensitivity, and gender equality. The College is committed to provide gender equality through the sincere efforts of a number of committees and cells, including the Anti-Harassment Cell, Women's Cell, Grievance Redressal Cell, Discipline Committee, Counselling Cell.

### **Women's Cell**

A women cell is established to address issues related to the welfare of women in society. The primary objective of this women cell is to create a safe and secure environment for women by addressing various issues related to their rights, security, and well-being.

Women cell of the college works towards raising awareness about women's issues and the laws that protect their rights. This cell organizes workshops, seminars, and awareness programmes to educate women about their rights and how to safeguard themselves from any kind of harassment or discrimination.

For the empowerment of students, staff, and local women, the Women's Cell has organised a variety of talks on women's empowerment, gender sensitization, gender equality, women's rights, and other pertinent topics, yoga classes, self-defense lessons, and classes on life guidelines. Additionally, discussions and competitions are held each year to commemorate "Women's Day."

### **Anti Sexual-Harassment Committee**

Anti-sexual harassment committee of Government College Ropar is responsible for creating and implementing plans and procedures to prevent and address incidents of sexual harassment. The primary objective of this committee is to create a safe and inclusive environment where individuals can work, learn, or interact without fear of harassment or discrimination.

The committee receives complaints and grievances related to sexual harassment and takes necessary steps to address them. This includes investigating the complaints, providing support to the victims, and taking disciplinary action against the perpetrator.

### **Guidance and Counselling Cell**

Guidance and counselling cell of the college actively organizes seminars, interactive sessions and awareness programmes to apprise the young learners about the various opportunities available to them. Academic counselling begins at the time of admission wherein the new comers are guided about the right subject combinations and the career path. Personal problems of the students are handled by the teachers at their own level.

Through Career Counselling, the students are apprised of the opportunities in higher education and the current job market. The Career counselling and guidance cell keeps holding extension lectures and interactive counselling session for competitive exams.

### **Anti Ragging Cell**

Anti ragging cell of the college is an active body that keeps a constant vigil to ensure that there is no incident of ragging in the college. Statutory warnings namely 'Ragging is a punishable offence and is strictly prohibited' are displayed at three strategic locations in the college. Every year, at the beginning of the session, the students are apprised of the negative aspects of ragging in the assemblies and the tutorial sessions. Other than the official anti-ragging committee, the staff members play a positive and constructive role in curbing this menace and till date there has been no instance of ragging reported in the college.

**Grievance Redressal Cell**

The grievance redressal cell of our institution is monitored by the Principal and a committee which includes senior members of the faculty. The students are encouraged to discuss their problems with their teachers especially during the tutorial meets. They can also put their complaints in The Grievance Box placed outside the common room and in the library. The complaint box is opened on weekly basis to take stock of the problems. After discussion with the Principal, a speedy redressal is ensured.

**Gender-sensitive campus:**

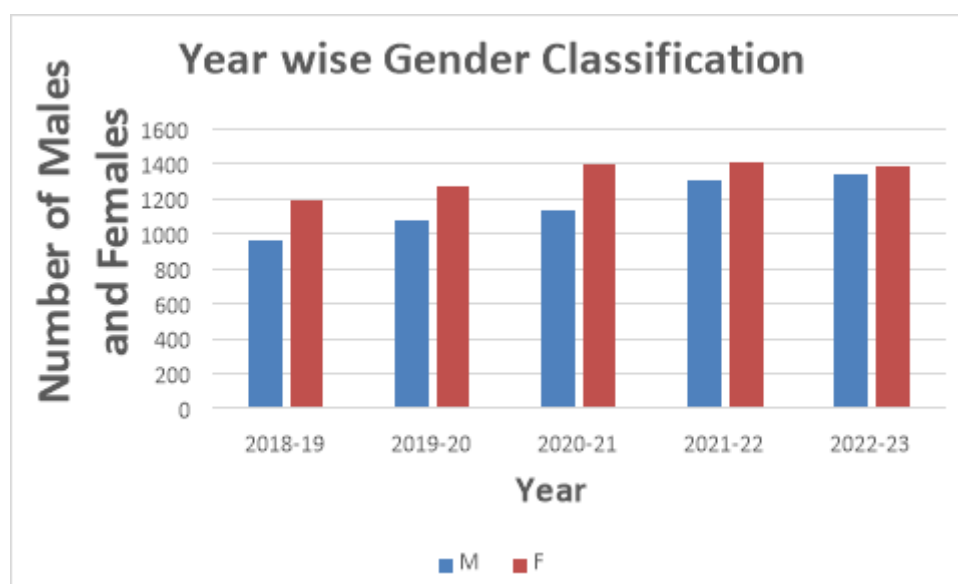

The Government College Ropar offers special attention to the whole development of female students and shines a focus on their bright future. In order to educate a fair gender sensitive environment in every ground, the institution specifically focuses on the areas where gender imbalance exists.

## **SALIENT FINDINGS AND RECOMMENDATIONS**

### **Salient Findings**

In most areas of its system, Govt. College Ropar has been able to achieve gender balance and provide equal opportunity for everybody. Some distinctive qualities include:

- In both arts and science UG and PG programmes, students are strong, particularly girls.
- Girl students enrollment in various classes is higher than the male students.
- Even in category-wise distribution, it appears that there are more female students than male students.
- The strength of the female staff is more than the male staff in both the regular teaching staff and guest faculty.
- Multiple committees and cells of the college run a variety of programmes to promote gender awareness among students.
- Except for the present academic year, there are more male non-teacher employees than female non-teaching employees.

### **Suggestions**

- The academic council and decision-making bodies must maintain balanced staff ratios of male and female.
- Introduce courses on self-employment in a variety of disciplines for both male and female groups.

## **CONCLUSION**

The analysis demonstrates that Govt. College Ropar goes above and above to promote gender equality, and its goals and objectives are met in every framework and project of the institution. In addition, the equal distribution of possibilities between the teaching and non-teaching staff shows that neither group has any challenges related to gender.

One might notice that a sexual orientation balance and gender consciousness are enabled by the institution's board and personnel with regard to admissions, scholarships, library facilities, teaching learning processes, and at all other essential levels. They also maintain a gender-sensitive attitude. It has been established that the College has several distinctive traits as well as some flaws. With gradual setup adjustments, the disadvantages may be overcome.

There has without a doubt been an increase in the enrollment of young women from all facets of society over time, and there haven't been any complaints based on gender-related issues to date. The College would definitely leave a mark on the nation with its strong commitment and duty to gender parity.
