

**Geography Department
Weekly Teaching Plan
2018-19**

Prof. Shaminder Kaur & Dimple Dhir

Class: B.A I (Semester I)

Month	Week 1	Week 2	Week 3	Week 4
August.	6-11 August	13-18 August	20-25 August	27-31 August
Topics to be Covered	Theory: Introduction to Geog. & its definitions Practical: Introduction to Cartography	Theory: Nature of Geography Scope of geog. In physical & human sciences Practical : History of cartography	Theory: Place of Geomorphology in Geography Practical : Types of Maps	Theory: Origin of Earth-Laplace Theory, Big Bang Theory Practical : Geometry of the Earth-Latitudes Longitudes
Month	Week 5	Week 6	Week 7	Week 8
September	1-6 September	7-8 September	10-15 September	17-22 September
Topics to be Covered	Theory: Continental drift with special reference to Wager's theory, Practical : Scales and its Types	Theory: Plate tectonic theory. Practical : Types of Graphic Scale	Theory: Landforms resulting from forces of compression and tension. Practical : Plain Scale and Time Scale	Theory: Rocks: Origin, Classification and Characteristics Practical : Comparative and Diagonal Scale
Month	Week 9	Week 10	Week 11	Week 12
Sep.-Oct.	24-29 September	1-6 October	8-13 Oct.	15-20 October
Topics to be Covered	Theory: Constitution of Earth's Interior Practical : Methods of Showing Relief-Contours	Theory: Earthquakes (causes, types and distribution) Practical : Hachure, Hill Shading & Layer Tints	Theory: Volcanoes (causes, types and distribution) Practical: Directions, Plotting of Course	Theory: Major land forms: Mountains, Plateaus and Plains Practical : True North, Magnetic North
Month	Week 13	Week 14	Week 15	Week 16
Oct.-Nov.	22-24 October	25 Oct-5 Nov	9-10 November	12-16 November
Topics to be Covered	Theory: Weathering Practical : Finding True North with the help of Pole Star, A watch, A rod	Mid Semester Tests	Theory: Geomorphological Processes of River and Wind Practical : Chain and Tape Survey- Triangulation	Theory: Geomorphological Processes-Glacier, Underground Water Practical : Sketch Method
Month	Week 17	Week 18	Week 19	
November	19-23 November	23-27 November	28 November Onwards	
Topics to be Covered	Theory: Geomorphological Processes of Sea Waves Practical : Open Traverse Method	Revision	Examination Break	

SHAMINDER KAUR
Head of the Geography Deptt.
Govt. College, Ropar

Principal
Govt. College
Ropar

Geography Department

Weekly Teaching Plan

2018-19

Prof. Shaminder Kaur & Prof. Dimple Dhir

Class: B.A I (Semester-I I)

Month	Week 1	Week 2	Week 3	Week 4
January-Feb.	24-31 January	1-2 February	4-9 February	11-16 February
Topics to be Covered	Theory: Introduction to Weather and Climate Practical: Introduction to Enlargement and Reduction	Theory: Elements and Controls of Climate Practical : Square and Triangle Method	Theory: Atmosphere-Composition and Structure Practical : Instrumental Method- Pantograph	Theory: Factors Controlling Insolation and Temperature and their distribution Practical : Xeroxing and Photographic
Month	Week 5	Week 6	Week 7	Week 8
Feb-March	18-23 February	25-28 February	1-9 March	11-16 March
Topics to be Covered	Theory: Atmospheric Humidity ,Precipitation and Condensation types Practical : Introduction to Weather Maps	Theory: Atmospheric Pressure-Local and Global wind patterns Practical : Scheme of Weather Symbols	Theory: Atmospheric disturbances-Cyclones and anticyclones Practical : Weather in India-Summer Season	Theory: Introduction to Oceanography and its topography Practical : Winter Season
Month	Week 9	Week 10	Week 11	Week 12
March-April	18-23 March	25-30 March	1-6 April	8-12 April
Topics to be Covered	Theory: Factors controlling the temperature and Salinity of oceans Practical : Interpretation of Weather Maps	Theory: Movements of Ocean waters- Waves , Tides and Currents Practical : Forecasting of Weather through Weather Maps	Theory: Marine Deposits Practical: Recent Advances in weather forecasting	Theory : Ocean as Storehouse for future

SHAMINDER KAUR
Head of the Geography Dept
