

Lesson Plan for BA.1st Semester 1st 2020-21 (Online Mode)

Sr.No	Month and week	Topics to be Studied
1	01 Sep- 5 Sep	The nature and scope of geography. Place of Geomorphology in Geography
2	07 Sep- 12 Sep	Theories about the Origin of Earth: Laplace theory and Big Bang theory.
3	19 August – 25 August	The constitution of the Earth's interior. Continental drift with special reference to Wagener's theory, Plate tectonic theory.
4	14 Sep- 19 Sep	Land forms resulting from forces of compression and tension.
5	21 Sep-26 Sep	Rocks:Origin, Classification and Characteristics.
6	28 Sep-03 Oct	Revision
7	05 OCT-10 Oct	Earthquakes and Volcanoes (causes, types and distribution).
8	12 OCT-17 Oct	Major land forms :Mountains, Plateaus and Plains. (types and distribution)
9	19 OCT-24 Oct	Geomorphic processes (Weathering, Erosion and Deposition);
10	26 OCT-31 Oct	Revision
11	02 Nov- 7 Nov	Cycle of erosion of Davis.
12	09 Nov- 14 Nov	Geomorphologic landscapes: Fluvial, Glacial,
13	16 Nov- 21 Nov	Geomorphologic landscapes Aeolian ,Coastal and Karst.
14	23 Nov- 28 Nov	Revision

Lesson Plan for BA.1st Semester 2nd 2020-21 (Online Mode)

Sr.No	Month and week	Topics to be Studied
1	29 January- 2 February	Definition of Climatology, Elements and Controls of Climate & Weather.
2	4 February -9 February	Atmosphere: Origin, Composition & Structure Insolation and Factors controlling its horizontal distribution.
3	11 February -16 February	Temperature: Horizontal & Vertical distribution. Atmospheric Pressure, and Planetary & Local winds.
4	18 February -23 February	Atmospheric disturbances: Tropical cyclones, Temperate cyclones and Anticyclones.
5	25 February -2 March	Atmospheric moisture: Forms of condensation; cloud, dew, fog and frost.
6	11 March -16 March	Precipitation: Forms and Types. World patterns of annual precipitation.
7	18 March -22 March	Definition of oceanography. Topography of the ocean basins: Continental shelf,
8	25 March -30 March	Continental slope, Deep sea plain, Oceanic deep features; Trench, Trough, Oceanic ridge, Guyots, Seamount.
9	1 April- 6 April	Factors controlling the world patterns of distribution of temperature and salinity in the ocean waters.
10	8 April-13 April	Movements of oceanic waters: Waves, Tides and Currents. Surface currents of the oceans.
11	15 April-19 April	Deposits and Corals (Formation, Types and Distribution) Oceans as storehouse of resources for the future
12	22 April-26 April	Revision
